*iHD171 Featuring HD Radio, iPhone 3G dock, iTunes Tagging,
Dual Alarms and TV Connection Capabilities To Be Debuted at
CES 2009*

LVCC Central Hall Booth # 12114

PORT WASHINGTON, NY – (December 30, 2008) - iLuv, the leader in innovative audio solutions, is proud to announce the iHD171 HD Radio with iTunes Tagging for iPhone 3G and iPod. This dual alarm clock with TV connection capabilities, AM/FM Radio and song title display will be available starting January 2009 at www.i-luv.com for the MSRP of \$199.99.

“iLuv is delighted to unveil their third HD radio alarm clock product to HD aficionados desiring a little something more in their bedside tunes and sound quality” said Robert Caputo, iLuv Sales VP. “We have created this product to meet the latest demands of HD users, featuring the dual alarm clock functions, iTunes tagging and a TV connection output for watching your iPod videos on TV.”

Features

- Compatible with iPhone 3G and 2G
- Time Sync function automatically updates the clock to match the time on your iPhone or iPod*
- One touch iTunes tagging: tags music from HD Radio and saves the song info on your iPhone & iPod
- Provides crystal clear, digital stereo for AM/FM HD Radio and multicast stations
- Receives CD-quality HD radio signals that increase clarity of FM radio stations
- Displays station, song title, band and frequency information
- Receives standard analog AM and FM stereo radio signals
- 30 Programmable presets (10 AM/20 FM)
- jAura Acoustic Speaker Technology for rich sound
- Play and charge your iPhone/iPod
- Output your favorite videos to your TV (iPod with video capability**)
- Digital clock display with dual alarm function
- Wake or Sleep to iPhone/iPod, AM/FM radio or buzzer
- Auxiliary line input for audio devices with 3.5mm jack
- Preset EQ function and mute function
- Audio output: 4Wrms x 2: 8Wrms/16Wpeak

**Excluding iPod nano 1st generation*
