

iLuv Debuts iEA15 iPod Remote Adapter for Any Third Party Earphones and Headphones

*iEA15 Allows You to Listen and
Control Your iPod From Your Earphones and Headphones*

PORT WASHINGTON, NY – (July 28, 2009) - iLuv, the leader in innovative audio solutions, debuts the iEA15 Headphone iPod Remote Adapter. The EA15 is a perfect solution for iPod music lovers looking for a way to control their iPod music playing functions without having to take it out of their pocket. The iEA15 headphone iPod remote adapter will be available in August for MSRP \$14.99 at www.i-luv.com.

Playing your Music

Volume up —

Play/Pause: Single click —

Go to next track: Double click —

Go to previous track: Triple click —

Volume down —

VoiceOver iPod shuffle 3rd gen.

— Press and hold center button to hear the title and artist of the song playing or to move between playlists

* The iEA15 is equipped with a remote control chip provided by Apple Inc.

iPod users can attach the iEA15 remote adapter to any standard pair of earphones or headphones without sacrificing sound quality. The in-line remote allows complete control of your iPod without having to take it out of your pocket. This lightweight and ultra portable solution also supports the VoiceOver feature on the iPod shuffle 3rd generation and is easy to install, simply plug and play. The iEA15 is compatible with the iPod touch 2nd generation, iPod nano 4th generation, iPod classic 120GB and iPod shuffle 3rd generation.

“Our new headphone iPod remote adapter is the perfect solution for owners looking to have remote function capabilities” says Howard Kim for iLuv. “We are proud to add an iPod remote function to our wide array of audio solutions for iPod users.”
